

Coastal Christian High School

J-Term

J-Term is an annual two-week experience offering students various and diverse educational opportunities. These opportunities are available to students through classes, internships, and trips. J-Term provides students the occasion to explore new areas of study, participate in an internship, experience other cultures, and serve the Lord in their local community and abroad. Our hope is that students would discover how they can use their God-given gifts and talents as they practice building community, telling the truth of God's story, and seek to glorify Christ. J-Term challenges students to explore both traditional and non-traditional areas of study.

When?: January 5-16, 2026

Who?: All students will be required to have 1 J-Term credit for every year of enrollment beginning 2025-2026.

What?:

Courses

J-Term courses allow students to experience new passions and areas of study. These courses may be academic, professional, or exploratory in nature. Every year, our staff and members of the community cover a variety of subjects and areas of interest in which students have the opportunity to discover how they can reflect the image of God utilizing their God-given gifts and talents. Students will begin signing up for courses in the fall semester.

Internships

Internships provide an opportunity for students to observe and experience different vocational settings and explore areas where they may feel called prior to making college decisions. Our hope is that internships will help students see how God has equipped them to glorify Christ in the workplace. Students will need to secure an internship during the fall semester to take place during the J-Term period.

Trips

Sophomores, Juniors, and Seniors have exciting opportunities to travel domestically or internationally. These trips are conceptualized, created, and coordinated by our faculty and staff. J-Term trips vary in their focus from educational, to service, to missions. Trips provide unique learning experiences in other cultures as students serve others and tell them the truth of God's story.

What about sports?: Winter sports will have practice for athletes that are still local. Winter athletes may sign up for any trip, unless specifically noted in the trip description.

We are excited about the opportunities that J-Term will provide. In the coming weeks, we will finalize and begin advertising the trips that will be offered. Once these trips are advertised students can start to apply for one of the trips. All of the trip information and application will be sent to families once we have finalized the offerings.
